

ADOLESCENT AND YOUNG WOMEN HPV AND PREGNANCY STUDY SCREENING WITH VIA and VILI CLINIICAL FORM

Family Name Initial: _____	HPV	_ _ _ _ _	U	_ _ _ _ _
		Study number(s)		
Given Name Initial: _____	OS/IN	_ _ _ _ _ _ _ _ _	_ _ _ _ _	
		NTIHC number	NHC No.	

Date of examination _____ (dd/mm/yy)

Visit Type (circle or tick one): []

0= unscheduled
 1= Visit 1 (Baseline) ----- weeks pregnant [][]
 2= Visit 2 (32 - 38 weeks) pregnant
 3 = Visit 3 (6 wks) after delivery
 4= Visit 4 (>6 weeks after delivery)

A. EXTERNAL EXAM

A1= Warts in Perineum/Perineal Area 1= No 2= Yes

A2= Warts in the Vulva 1= No 2= Yes

B. SPECULUM EXAM

B1= Warts in Cervical Epithelium 1= No 2= Yes

B2= Warts in Vagina 1= No 2= Yes

C. VISUAL INSPECTION WITH 5% ACETIC ACID

C1. Squamocolumnar junction fully seen 1 = No 2 = Yes

C1.2 Typical nature of cervix (circle one type)

- 1= Nulliparous
- 2= Cervical Mucus
- 3= Parous
- 4= IUD strings
- 5= Squamous metaplasia of glandular cells

C2. Atypical cervix 1 = No 2 = Yes

C2.1. If yes, nature of cervix (circle one type)

- 1= Ectropion
- 2= Inflammation without discharge
- 3= Multiple Nabothian follicles
- 4= Polyp
- 5= Inflammation with discharge (cervicitis)
- 6= Condyloma/warts
- 7= Leukoplakia

C3. Finding one minute after application of 5% acetic acid (VIA)

1= negative 2= Positive 3= Positive, invasive cancer

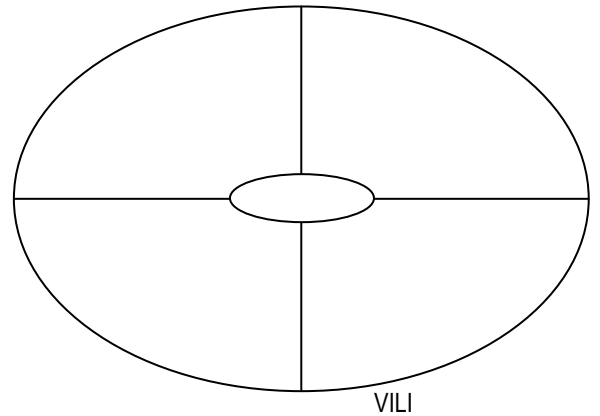

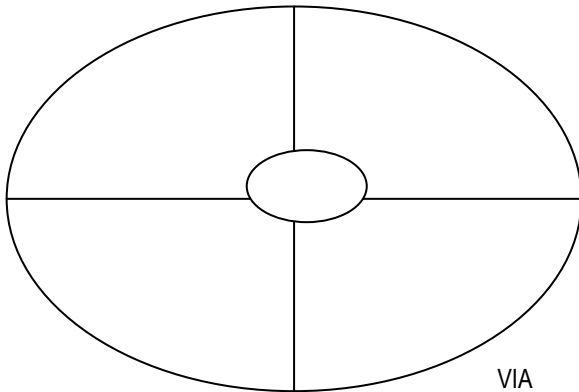

C3.1. If VIA positive, does the acetowhite lesion extend into the endocervical canal?

1 = No 2 = Yes

C3.2. If VIA positive, how many quadrants are involved in the acetowhite lesion(s)?

1= Two or less 2= Three 3= Four

D. Draw the location of *the squamocolumnar junction with dotted line* and *acetowhite/iodine non-uptake area(s) as a continuous line*

E. Finding one minute after application of Lugol's Iodine (VILI)

1= negative 2= Positive 3= Positive, invasive cancer

F. If invasive cancer, stage

1= 1A 2= 1B 3= 2A 4= 1B 5= 11A 6= 11B 7= 1VA 8= 1VB 9 = Not known

F. I. If yes, Biopsy taken 1= No 2= Yes

If yes, indicate the biopsy site(s) in the diagram with "X" mark

Date taken (dd/mm/yy) _____

Biopsy No. & results _____

G. Action taken

1= Advised follow-up after 5 years

2= Advised medication for cervicitis and follow-up after 6 months

3= Referred for colposcopy

4= Referred for immediate treatment

5= Referred for immediate staging and treatment for invasive cancer

51. If treatment for invasive cancer is offered, specify type _____

1= Surgery 2= Radiotherapy 3= Chemotherapy

4= Combination, Specify _____
